6.16 DUST CONTROL

DEFINITION:

The spraying of calcium chloride or similar dust control product on gravel or dirt roads to suppress the level of dust created by traffic.

POLICY:

The Municipality may provide dust control in front of residences within the Municipality.

If a resident is experiencing a high level of dust within their yard site, the resident shall notify their Division Councillor. Depending on monies available/budget and the availability of maintenance crew, Council may approve the request or defer the request to the following year for dust control.

RATIONALE:

Dust control issues vary from year to year depending on weather conditions and traffic volume. Council considers providing dust control of yard sites to be a service to improve the quality of life of its residents. Residents are not charged.

AUTHORITY:

The Municipalities Act, 2006: 12(1)
