6.18 CULVERTS

DEFINITION:

POLICY:

The Municipality does not directly sell culverts. However, if the Municipality is contracted for a custom work project where a culvert is required, the Municipality may supply the culvert with its cost being included in the total charge for the project.

The maintenance crew may salvage used culverts for Municipal or ratepayer use at no charge.

RATIONALE:

The Municipality purchases culverts and maintains an inventory for Municipal maintenance and construction purposes. Bulk order pricing is negotiated with suppliers with the understanding the culverts are not for resale.

It would be difficult to maintain the necessary Municipal inventory if culverts were made available to the public for resale.

AUTHORITY:
