Box 458      Luseland, Saskatchewan      S0L 2A0  
Phone 306-372-4224      E-mail [rm352@sasktel.net](mailto:rm352@sasktel.net)      Fax 306-372-4770

### **6.19 APPROACHES – excluding Oil and Gas requests**

#### ***DEFINITION:***

A constructed vehicle/equipment access road from a developed roadway, across the Municipal right-of-way to private land

#### ***POLICY:***

At the request of the landowner via the Division Councillor, the Municipality may approve and construct an approach crossing the Municipal right-of-way. If approved by Council, approaches shall have a 28 to 30 foot top, with 5 to 1 ditch sloping. The Municipality shall supply the labour, culvert and gravel, if required, and the landowner shall supply the clay. Construction will be at the leisure of the Maintenance Crew.

The construction of one approach per quarter section shall be of no charge to the landowner if he/she supplies the clay. If the quarter section has been split into parcels each landowner will be provided with an approach. If additional approaches are requested and approved by Council, it will be deemed custom work and the landowner will be billed accordingly at Municipal equipment and supply rates.  
(see *Municipal rates*)

#### ***RATIONALE:***

The Municipality is the legal owner of all right-of-ways and will construct all approaches approved by Council. Council approval is required as construction and placement of approaches need to address safety issues of line locates, ditch sloping, site lines and water flow as well as landowner needs.

#### ***AUTHORITY:***
